## Reflex Cube and the Nature of the Universe: How the Universe Was Made (Paperback)

By Ford Van Hagen

Van Hagen Publishing, United States, 2010. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.If you took all of the mystery novels in the world and stacked them end to end, they would probably stretch all the way from Kansas to Maine. Try to imagine these works as being unfinished, or with the last chapter missing. Well, this is a very similar situation to modern cosmology. We have enough science books to stretch across a continent, but we cannot explain the nature of creation. All we need is that one book to explain how the universe was made in order to solve this mystery, and complete the science of modern cosmology. Reflex cube and the nature of the universe is that one book. Not everyone in science is willing to embrace the idea of theoretical physics as an explanation for the nature of the universe. But for those of us who realize that any possible answer has to come in the form of a theory in order to be appreciated, then there is hope. We will know the answer, because we are open to the idea of unknown physics, and...
